1) All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the official test regime for passenger cars and the emission figures will be used to calculate the vehicle tax on vehicles first registered from 1st April 2026 and from 6th April 2026 for company car Benefit-In-Kind purposes. The exact CO_2 figures of the vehicle will vary according to any options and packs specified.

2) MHEV and PHEV vehicles with a list price over £40,000 and BEV vehicles with a list price above £50,000 (vehicle price plus paint, options, packs and delivery costs - excluding any discounts) when new, pay an additional £440 per year on top of the standard rate, for five years from the start of the second licence.

3) P11D value for Benefit-In-Kind purposes is the total vehicle price plus delivery charge. BIK % is shown for the 2026/27 tax year.

4) All 'On The Road' prices quoted in this price list include vehicle preparation, inclusive of number plates and VAT at £800 and vehicle tax as 1st April 2026 (as set by the government). This charge does not include any provision for fuel. The On The Road price also includes a £55 first registration fee (as set by the government – excludes Channel Islands and Isle of Man). The list prices quoted do not include these additions.

5) Figures shown reflect standard vehicle without options. The Volvo car configurator can display the estimated CO_2 and vehicle range according to selected packs, options and wheels. Confirmation of the exact CO_2 and EAER (Equivalent All-Electric Range) values can be given once the vehicle order has been confirmed by the factory for production.
