Twin Motor models equipped with 20-inch wheels have an EPA-certified electric driving range of up to 260 miles (MPGe: 103 city/ 85 highway/ 94 combined), when the battery is fully charged and under ideal driving conditions. Your range and MPGe will vary for many reasons, including but not limited to, driving conditions, how and where you drive, how you maintain your vehicle, battery-package/condition, and other factors. Visit <https://fueleconomy.gov> for further information, but please note information on the Twin Motor Performance models may not be published yet. Charging times can vary and are dependent on factors such as outdoor temperature, battery temperature, charging equipment, battery condition and car condition.
