Meet the Refreshed XC60

Mild Hybrid

WE ARE REDEFINING PERSONAL MOBILITY.

At Volvo, we believe cars should set you free. Our mission is to provide freedom to move sustainably, safely, and seamlessly.

We leverage cutting-edge technology and invent where necessary to enhance your experience, aiming for fully connected, electrified, and self-driving cars.

By 2030, we want 50% of our cars to be electrified, and we aim to give you back a week of quality time per year through a new Volvo car.

With 'Omtanke', the Swedish ethos of care and thought at our core, we partner with leading innovators to drive a more mindful and sustainable future.

For the upcoming model year, the XC60 receives a significant refresh, featuring key updates in user experience, design, and comfort along with a faster and more responsive infotainment system.

Since its introduction in 2017, the XC60 has been Volvo Cars' top-selling model and one of the best-selling plug-in hybrids in Europe. More than one and a half million XC60s have been sold across the globe, and 2024 marked a sales record.

NEW-GENERATION USER EXPERIENCE, WITH A LARGER SCREEN.

The refreshed XC60 comes equipped with Volvo Cars' new-generation, new-look user experience, designed to be a safe and enjoyable way to interact with the car's central infotainment screen, more focused and personalised than its predecessor, with several *Google services built-in.

- A larger 11.2-inch, free-standing central touchscreen further enhances the experience in the XC60, opening a world of new features, apps and over-the-air updates.
- The pixel density is increased by 21 per cent, resulting in an even crisper display.

Faster, more responsive infotainment system:

Thanks to the next-generation *Snapdragon Cockpit Platform from Qualcomm Technologies, the infotainment system with **Google built-in is more than twice as fast as the outgoing system, with ten times faster graphics generation.

The result is a more responsive infotainment system that displays the right information at the right time to reduce driver distraction and enhance safety.

*Snapdragon is a trademark or registered trademark of Qualcomm Incorporated. Snapdragon is a product of Qualcomm Technologies, Inc. and/or its subsidiaries.**Google, Google Play and Google Maps are trademarks of Google LLC. Google is a trademark of Google LLC. Google Assistant is not available in certain languages and countries. Sequences shortened and simulated. Google features are only for 5 years. After 5 years, new terms and conditions apply.

BEAUTIFULLY DESIGNED AND SMARTLY PLANNED.

- The exterior of the refreshed XC60 brings a more contemporary look to the premium five-seater.
- The new air intake, with Volvo Cars' iconic iron mark, reflects the recent updates to the XC60.
- The refreshed XC60 also comes with new wheel options and darker rear lights.
- The new model year introduces two new colours, Forest Lake and Aurora Silver, both available on the refreshed XC60. In addition, Mulberry Red will be available on the XC60 for the first time.
- With smart storage, new cupholders, an improved wireless phone charger and a flexible and roomy load compartment, the interior of the XC60 is versatile and practical.

Superior comfort and one of the best-sounding audio systems for a car:

- Thanks to an even quieter cabin and Volvo Cars' legendary seat comfort as standard, riding in the XC60 is more comfortable than ever before.
- The refreshed XC60 is also equipped with Volvo Cars' state-of-the-art air purification technology for enhanced well-being.

THE EVOLUTION OF THE DYNAMIC SWEDISH SUV EXPERIENCE.

The Volvo XC60 perfectly blends comfort with control. Bold design meets a refined interior where technology feels effortless, and every drive is a pleasure.

With its muscular yet elegant Scandinavian design, the XC60 is built for any challenge. Inside, premium Swedish materials and clever details

make daily life easier, with an airy, light-filled cabin.

Behind the wheel, human-centric technology connects and keeps you safe with advanced safety features.

This is the dynamic Swedish SUV experience. Evolved.

The Volvo XC60 embodies Scandinavian design—understated, confident, and beautifully uncluttered. Its profile showcases poise and power, with a rising window line, sharp tailgate, large wheels and pronounced arches that highlight its athleticism.

Up close, sculpted side panels and sharp creases enhance its muscular, modern look. Full-LED headlights with T-shaped daytime lights create an unmistakable presence, while the flowing rear lights amplify its strong presence.

The XC60 is a car you'll always take pride in and never tire of admiring.

PLEASURE FOR YOUR SENSES.

The Volvo XC60 is designed for pure enjoyment, whether the journey is short or long. Crafted to inspire confidence, it puts you in full control, with intuitive technology that seamlessly supports you.

The lightweight, expertly tuned chassis strikes the perfect balance between comfort and control, offering a

rewarding drive that keeps you refreshed, even on longer trips.

Inside, experience dynamic handling in a serene cabin with seats designed to perfectly complement the human form, a quiet powertrain, and a first-class sound system for ultimate comfort and relaxation.

THE COMMAND CENTRE.

When you take the driver's seat of the XC60, you're in complete control of your journey. Everything is designed for your command, from the driving position to your interactions with the navigation system.

The cockpit-style dashboard and centre console wrap-around puts you in control, creating an immersive driving environment. Beautifully

crafted controls enhance every interaction, making it a pleasure to drive.

We prioritise materials as much as design. With a tailored dashboard featuring contrasting stitching and genuine wood accents, you're surrounded by expert craftsmanship.

In the XC60, being in command is stylish and effortless.

YOUR SANCTUARY.

The XC60's interior feels like a luxurious living room, blending high-quality materials and thoughtful design to create a warm, inviting space for all passengers. Everyone experiences the same high standards of comfort and light, making every journey soothing.

Comfortable, adjustable seating is central to this space, while natural light floods in through the panoramic roof. A minimalist design, featuring fewer buttons, gives you a sense of Swedish calm, and clever storage under the rear seats adds convenience.

As you unlock the XC60, illuminated door handles guide your entry. Inside, ambient lighting creates a welcoming glow, enhanced by ground lighting that illuminates the area beneath open doors to help you avoid puddles.

Advanced Air Cleaner technology makes sure the air inside is always clean and fresh, automatically filtering out dust, pollen, and odours while monitoring air quality. Just set your desired temperature, and the car takes care of the rest.

The combination of clear, easy-to-read instruments and the distinctive lines of the dashboard look great and work beautifully. They exemplify the meeting of form and function.

Rich materials and refined craftsmanship come together from natural driftwood decor to the double-etched stainless steel speaker grilles that enhance the space with a shimmering allure. The silver speaker cones, crafted from Bowers & Wilkins' exclusive Continuum material, are beautifully revealed through the mesh.

A crystal gear selector by the Swedish glassmakers Orrefors delight the senses.

VERSATILITY'S NEW LOOK.

The XC60 is more than just stunning design and a rewarding driving experience, it's built for versatility, seamlessly fitting into your active lifestyle.

Inside, a spacious load compartment easily accommodates irregularly shaped items, while a loading hatch in the rear seats allows you to transport long objects without compromising on passenger space.

Enhance your XC60's functionality with our range of accessories, designed to perfectly complement the car's interior and meet your everyday needs.

STAY CONNECTED AND IN COMMAND.

We create technology to serve you and make life easier. Everything that's complicated or doesn't add to your experience is removed.

The XC60 allows for intuitive control, seamlessly connecting you to the car and the world around you. At the centre of the cabin is a sleek 11.2-inch touchscreen display, easy to navigate like your smartphone.

Essential driving information is clearly shown on the 12.3-inch driver display,

and the head-up display projects vital data in your line of sight, allowing you to stay informed without looking away from the road.

Your Volvo also listens to you—just use your voice while keeping both hands on the steering wheel, voice control will help you operate climate, navigation, and entertainment.

In a Volvo, you and your car act as one.

DON'T JUST LISTEN, FEEL THE MUSIC.

Inside your Volvo, the audio system is designed to immerse you in the music you love, no matter where you sit. Tailored to the acoustics of the XC60, our audio philosophy focuses on capturing the soul of music. In collaboration with Bowers & Wilkins, we've crafted some of the best-sounding audio systems in the class.

For true music enthusiasts, the Bowers & Wilkins system delivers a remarkable 1410W output through 15 high-end speakers, including a specialized tweeter-on-top centre speaker that minimizes acoustic reflections and a unique air-ventilated subwoofer. This setup surrounds you with powerful, pristine sound that feels spacious and true to life.

Experience music the way it was meant to be heard.

Our Bowers & Wilkins audio system seamlessly integrates with your Volvo's cabin to deliver an immersive sound experience. Innovative audio processing recreates the acoustics of specific rooms, bringing you closer to the music. The air-ventilated subwoofer enables low, undistorted bass and turns the cabin into a massive woofer.

INTUITIVELY CONNECTED.

Control your audio and hands-free phone functions effortlessly through the touchscreen, steering wheel buttons, or voice commands. With Bluetooth® connectivity, streaming music from your phone is a breeze.

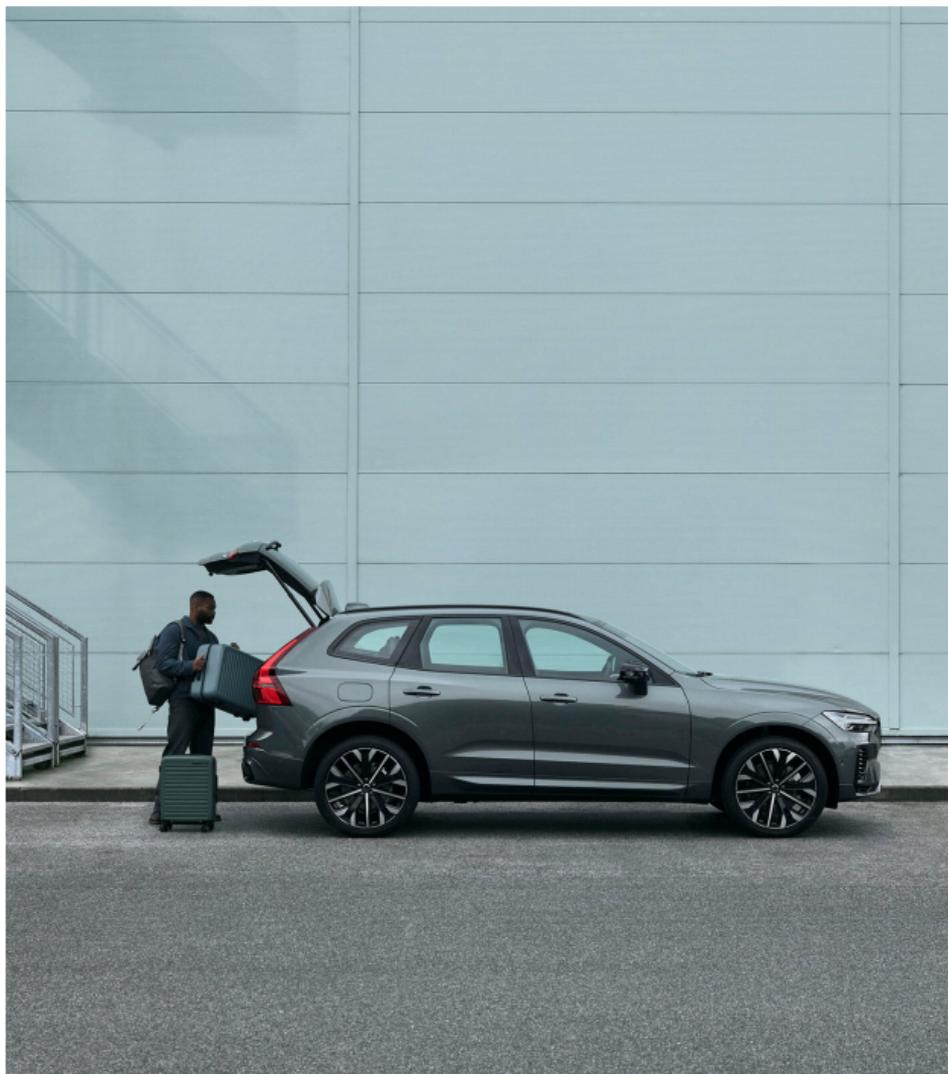

PILOT ASSIST: DESIGNED FOR SAFER, EASIER DRIVING.

Our advanced driving technologies offer a smooth, intuitive experience from standstill to motorway speeds.

Pilot Assist and Adaptive Cruise Control make driving in heavy traffic less stressful by automatically maintaining a safe distance from the vehicle ahead and making subtle steering adjustments to keep you centred in your lane.

In stop-and-go traffic, your Volvo effortlessly follows the car in front, braking to a complete stop when necessary and resuming movement as they take off.

This is driving made safer and easier, with the aim to optimize your control, comfort and convenience.

Please note: The driver is always responsible for how the car is controlled; the functions described here are only supportive.

CITY SAFETY TECHNOLOGY: YOUR PROACTIVE PARTNER ON THE ROAD.

Our advanced proactive safety technology empowers you with a greater sense of control.

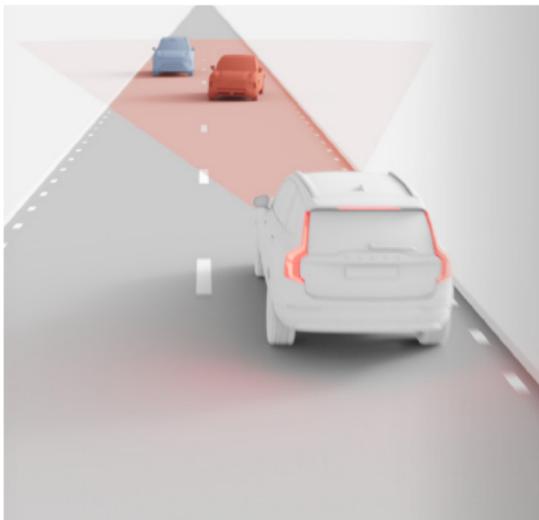

At the core of this is City Safety, designed to keep you alert and assist with braking or steering to help prevent accidents. It can detect vehicles, pedestrians, cyclists, and large animals—even at night—issuing warnings and braking automatically to avoid collisions or reduce impact.

Our innovative 'Oncoming Mitigation by Braking' technology detects oncoming

vehicles and can apply brakes to mitigate potential collisions, a world-first by Volvo.

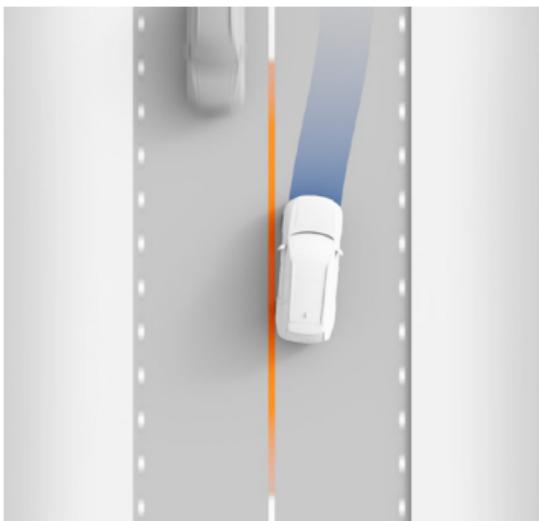

In emergencies at speeds between 50 and 100 km/h, City Safety aids rapid evasive manoeuvres by braking the inner wheels individually, enhancing your steering control.

City Safety is your perfect partner—proactive when needed and discreetly supportive otherwise.

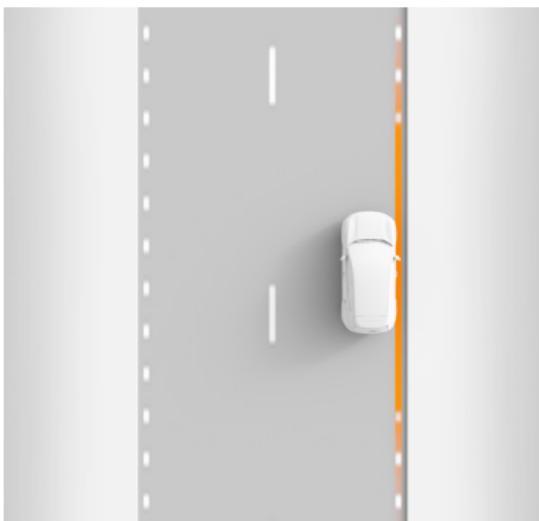

Oncoming Mitigation by Braking

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically and tighten the front safety belts in order to help reduce the effect of a collision.

Oncoming Lane Mitigation

Using automatic steering assistance, this system helps you avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car can alert you and gently help steer you back into the correct path.

Run-off Road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off Road Mitigation detects you're about to leave the road unintentionally, it can provide steering input and, if necessary, brake support to help you back on track.

PERFECT PARKING, EVERY TIME.

In a Volvo, parking is a breeze. Front and rear park assist functions alert you to obstacles, ensuring smooth manoeuvres. Enhance your experience with our 360° camera, which provides a detailed bird's-eye view of your surroundings, making reversing and navigating tight spaces effortless.

DESIGNED TO PROTECT.

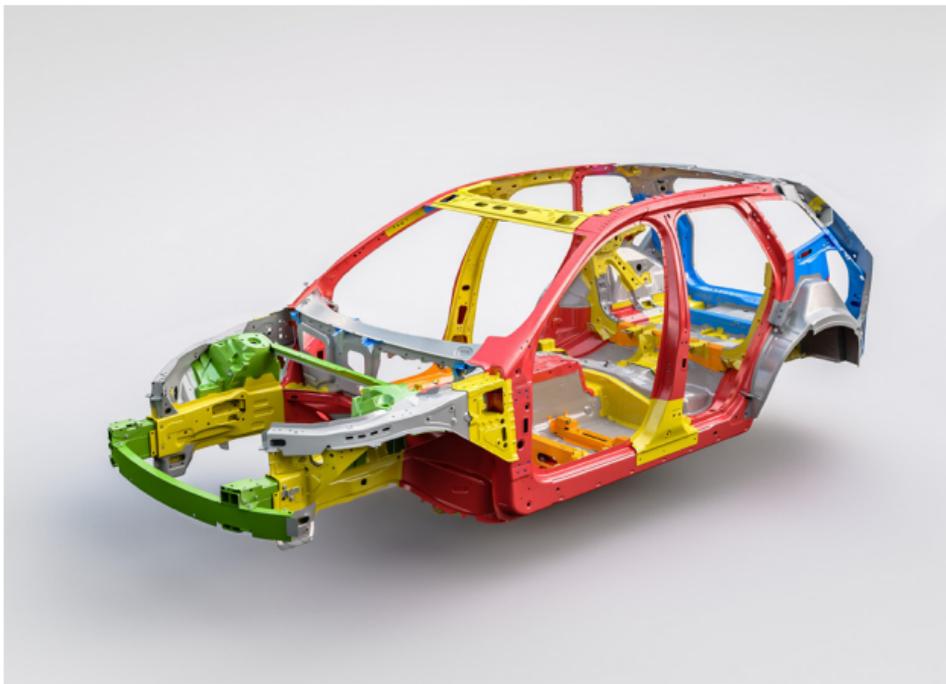

At Volvo, protecting you and your passengers is at the core of our design philosophy, driven by decades of passionate innovation.

Our advanced safety features work together to ensure maximum protection during a collision. Every element—from seat design to the safety cage, belts, and airbags—is engineered to minimize strain on occupants.

The front seats provide exceptional comfort and include whiplash protection for your neck and back in rear impacts. In a run-off-road scenario, the energy-absorbing seat structure helps protect your spine during hard landings.

This commitment to safety makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb a vertical impact, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

Child safety

At Volvo Cars we've spent decades continually researching and improving child safety. Our unique approach includes creating and carrying out tests based on real-life traffic situations, as well as testing our child seats* alongside our cars. With our latest range of child seats, we offer unparalleled protection.

*This is an accessory & does not come with the regular features of the car.

ENJOYING MORE, USING LESS.

Volvo powertrain strikes the perfect balance between performance and efficiency, offering an exhilarating drive with low fuel consumption and reduced emissions.

Our lightweight, low-friction engine design and advanced boosting technology ensure smooth, agile handling. The compact design also maximizes interior space and enhances dynamic capabilities.

Featuring precise manual transmissions and an eight-speed Geartronic™ automatic gearbox, each engine's potential is maximized. Geartronic™ minimizes power loss, always selecting the optimal gear, or you can opt for manual mode to shift yourself.

DRIVE, DON'T COMPROMISE.

We believe a car can be both exhilarating and comfortable. The XC60 perfectly balances control, precision, and comfort, rewarding your driving style with responsive handling and making it ideal for long journeys.

The sophisticated double-wishbone front suspension and innovative integral axle rear suspension work in harmony, ensuring you stay in control without sacrificing comfort.

Our AWD technology with Instant Traction™ enhances stability and traction on all road surfaces and weather conditions, directing power to the wheels with the best grip for an optimised driving experience.

MILD HYBRID CARS.

An integrated starter generator supports the car's petrol engine for a smoother drive with reduced fuel consumption & lower tailpipe emissions.

THE OPTIMAL MILLER ENGINE.

The innovative Miller engine enhances fuel efficiency, reduces emissions, and meets future fuel standards. Utilizing the advanced Miller cycle, it optimizes thermal efficiency for lower fuel consumption, quieter operation, and improved turbocharging compatibility.

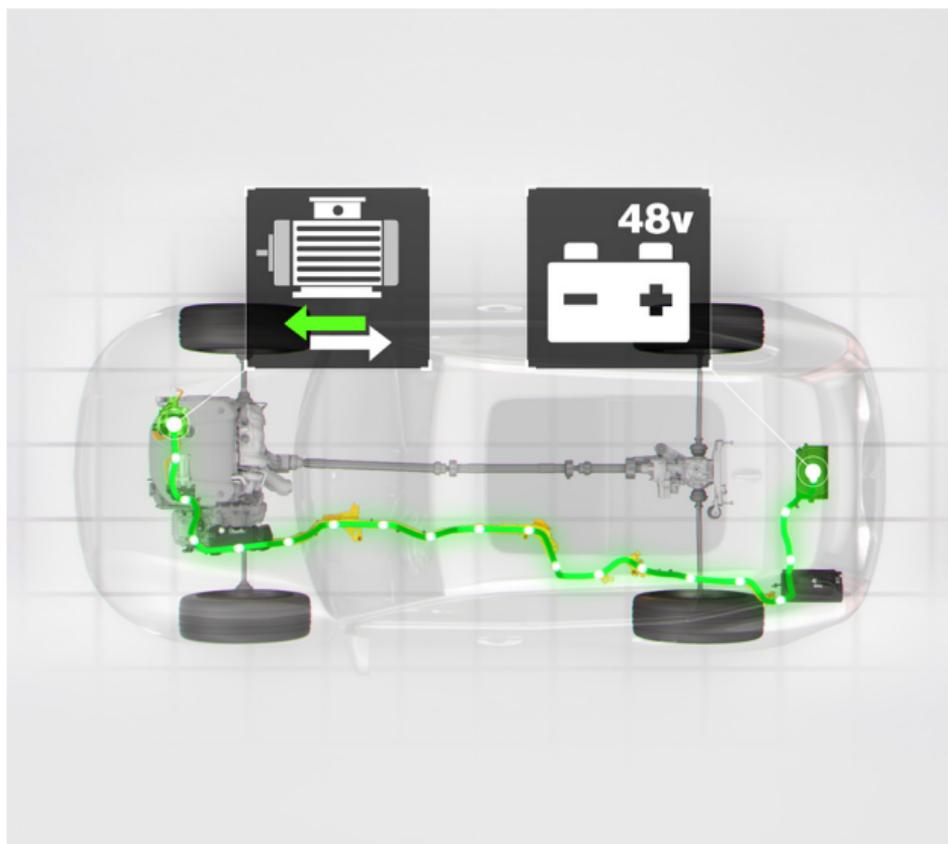

Compatible with E20 fuel, this engine positions Volvo as a leader in sustainable luxury cars in India.

Key Benefits:

- Reduced emissions
- Enhanced cooling efficiency
- Quieter and more efficient driving experience

HOW DOES A MILD HYBRID CAR WORK?

Our mild hybrid cars recover brake energy to charge a 48V battery when braking. An integrated starter generator uses this energy to momentarily support the combustion engine. Together, this gives you a more fuel-efficient and smoother driving experience.

Smoother drive

The mild hybrid technology adds to a more refined driving experience. The engine restarts instantly and you can enjoy a smoother drive from a standstill.

More power

Using recuperated electric energy, the integrated starter generator boosts the combustion engine for more powerful acceleration.

Lower fuel consumption

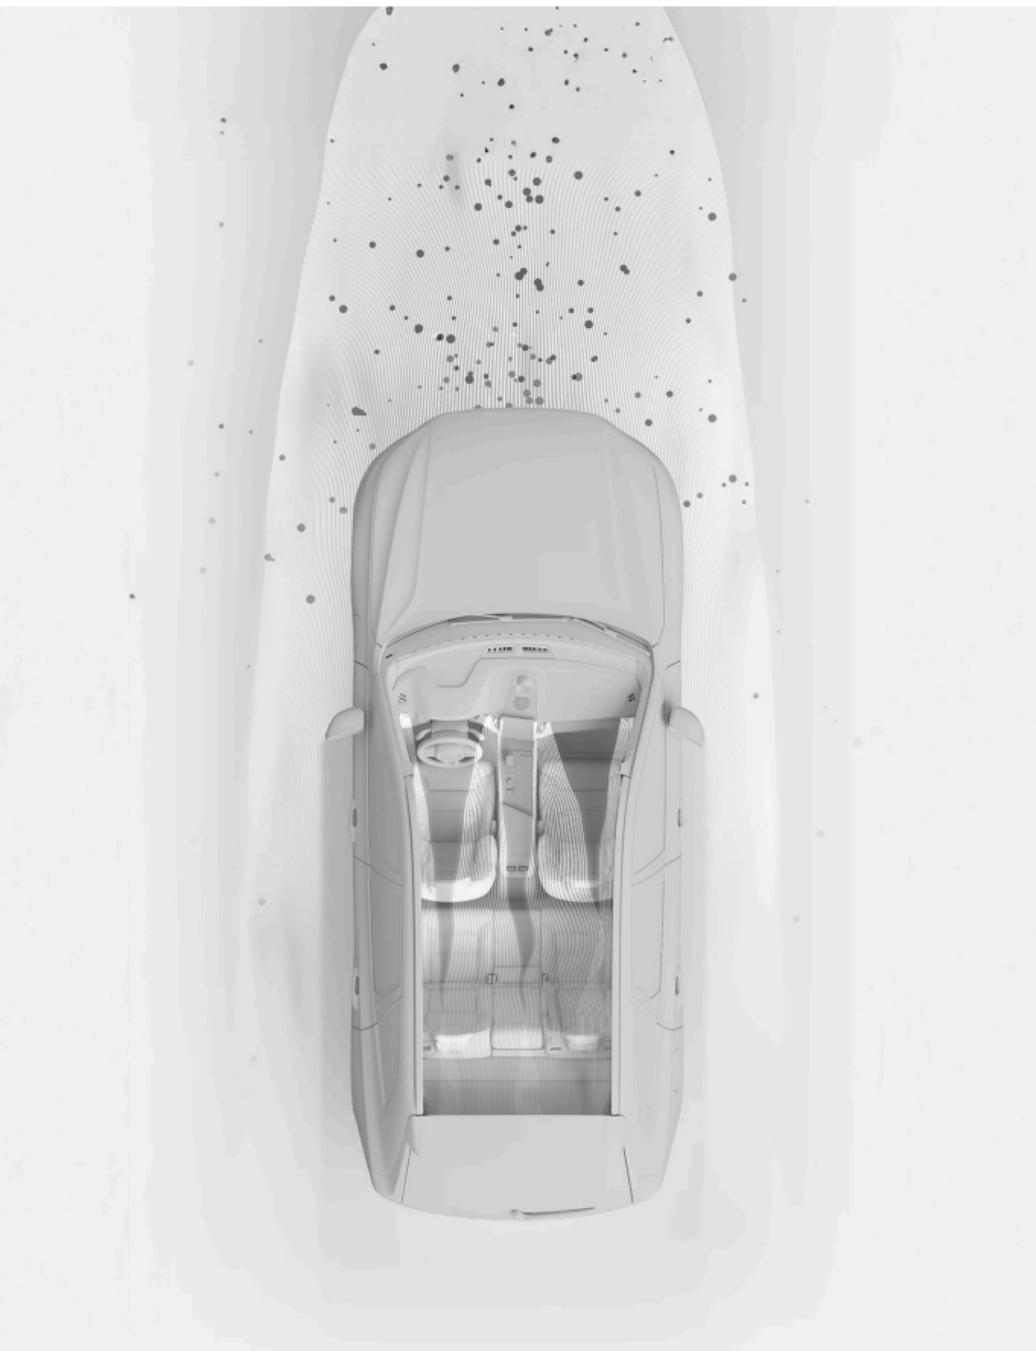

The integrated starter generator actively reduces engine load for lowered fuel consumption, especially in urban driving situations.

BREATHE CLEAN AIR WITH OUR WORLD-FIRST AIR QUALITY TECHNOLOGY.

When you're in the XC60, you're breathing clean air.

Volvo's Advanced Air Cleaner technology features a sensor that measures PM 2.5 levels, optimizing air quality and reducing health risks from pollution. Cleaner air enhances driver concentration, promoting safer driving.

You can trust that the air inside your Volvo is cleaner and healthier.

WE'RE PROUD TO PARTNER WITH GOOGLE.

We're the first to partner with *Google, integrating an Android-powered infotainment system with built-in Google apps and services. Enjoy hands-free control of temperature, navigation, music, and messaging with Google Assistant. Access music apps and real-time traffic updates via Google Play and Google Maps. All Volvo cars with this system come with a 5-year standard Digital Services Package.

Inside your Volvo. Just ask Google.

*Google, Google Play, Google Maps and YouTube Music are trademarks of Google LLC. Google Assistant is not available in certain languages and countries. Sequences shortened and simulated. The display is for illustrative purposes only. Functions may vary between configurations and markets.

FRONT MASSAGE SEATS.

The backrest features ten massage points, with five programs, three speeds and three intensities to choose from. Available for Comfort seats with perforated fine Nappa leather upholstery.

THE ULTIMATE GRADE OF LUXURY.

Elevate your journey with the Volvo XC60, where Swedish luxury meets exquisite design. Every detail is curated for a stylish and invigorating experience, from the striking exterior to the meticulously crafted leather interior.

Exceptional comfort defines the XC60, with supportive, adjustable seats and customizable front massage

seats for ultimate relaxation on long journeys.

The Volvo XC60 embodies our commitment to human-centric design, showcasing intelligent luxury with distinctive style.

Elevate your driving experience, because you deserve nothing less.

LUXURY INTERIORS.

The exclusive Volvo XC60 embodies contemporary Swedish luxury with subtle jewelry accents and beautifully crafted wheels. Inside, genuine materials and exquisite craftsmanship create a sensory experience.

Enhanced by leather comfort seats, a tailored dashboard, and natural driftwood decor, the XC60 serves as your personal statement of dynamic luxury.

The power-operated comfort seats with leather upholstery, front seat cushion extensions and the exclusive natural driftwood decor add to the sensory experience of contemporary luxury.

Wireless Phone Charging

There's a space next to the gear knob where a mobile phone can be stored and wirelessly charged, helping to reduce clutter and make it easy to reach when you need it.

Our Tailored dashboard with contrasting stitching and refined Charcoal or Blond interior options enhances the luxurious cabin ambience, while the intuitive 31.24 cm (12.3-inch) driver display with four graphic modes and the 22.86 cm (11.2-inch) centre touchscreen puts you in the centre of action.

WELCOME TO VOLVO CAR LIFESTYLE COLLECTION.

Our Lifestyle Collection includes a wide range of lifestyle accessories - from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit collection.volvocars.com
