## Schedule of Factory Maintenance Service Operations 2022 ICE/PHEV/MHEV Models

S60 • S90 • V60 • V60CC • V90 • V90CC • XC40 • XC60 • XC90

Service every  
**10,000 miles**  
or **1 year**,  
whichever comes first.

To enhance your ownership experience, your new Volvo car includes complimentary factory scheduled maintenance which covers the first three (3) regularly scheduled maintenance services at 10,000 miles or one year (whichever comes first); 20,000 miles or two years (whichever comes first); and 30,000 miles or three years (whichever comes first).

### Every **10,000 miles** or **1 year**, whichever comes first

- Engine Oil and Filter: Replace**
- Service Reminder Indicator (SRI): Reset**  
Clears codes for next scheduled service.
- Engine Coolant: Check/Adjust Antifreeze Rating and Anti-Corrosion Agent**
- Power Steering Fluid Level: Check/Adjust**
- Automatic Transmission Control: Check Park/Neutral Position (PNP) Switch**
- Washer Fluid: Check/Adjust**
- Check All Wiper Blades and Washers for Headlights and Windshields for Function and Signs of Wear**
- External Lighting: Check**
- Horn: Check Function**
- Seatbelts: Check Function**
- Brake Fluid Level: Check/Adjust**
- Brake Fluid: Replace Every 3 Years**  
Volvo recommends to replace every 3 years (if driven in mountainous areas or humid climates—every year) at owner's expense.
- Parking Brake: Check/Adjust**
- Brake Pads/Discs: Check**
- Wheels and Tires: Check Wear and Condition**
- Spare Tire Check for Damage, Wear, and Tire Pressure**  
Check spare tire pressure (where applicable) every 2 years or every 40,000 miles.

## Every 20,000 Miles (20, 40, 60, 80, 100, 120, 140)

---

- **Perform all items listed under “Every 10,000 Miles” section and include the items listed below.**

In the event of a leak from the transmission, check the oil level.
- **Automatic Transmission Fluid Level: Check for Leaks/Adjust**
- **Headlights, Fog Lights: Check and Align**
- **Cabin Air Filter: Replace**  
Volvo recommends that the filter be replaced at least once a year or more often in heavy traffic and dirty/dusty areas.
- **Wheels and Tires: Check Inflation Pressure**
- **Reset Tire Pressure Monitor System**
- **Cleaning inside windshield in front of camera for cars with Collision Warning.**  
Clean at first 20,000 miles only.

## Every 40,000 Miles (40, 80, 120)

---

- **Perform all items listed under “Every 20,000 Miles” section and include the items listed below.**
- **Fuel Lines and Fuel Filter: Check for Leakage And Damage**
- **Engine Air Cleaner (ACL): Clean the Air Cleaner Housing/Replace Filter**  
May be necessary to change more frequently when driving in dusty/dirty areas.
- **Steering/Front Suspension: Check for Wear**
- **Rear Suspension: Check for Wear**
- **Final Drive/Bevel Gear: Visual Inspection, Check for Leaks**  
Only check the level if there is leakage.  
(All-wheel Drive Models Only)
- **Driveshaft Joints: Check for Wear/Play**
- **Driveshafts: Check Rubber Boots**
- **Propeller Shaft, Pilot Bearing, and Universal Joints: Check Wear**  
(All-wheel Drive Models Only)
