

Schedule of Factory Maintenance Service Operations

2024 Fully Electric Models

XC40 Recharge Pure Electric • C40 Recharge Pure Electric

To enhance your ownership experience, your new Volvo car includes complimentary factory scheduled maintenance which covers the first two (2) regularly scheduled maintenance services at 20,000 miles or two years (whichever comes first) and at 40,000 miles or four years (whichever comes first).

Every **20,000 miles (20, 40, 60, 80, 100, 120, 140)** or **2 years**, whichever comes first

- ❑ **Service Reminder Indicator (SRI): Reset**
- ❑ **Cabin Air Filter: Replace**
Volvo Car USA recommends that the Cabin Filter on Electric Vehicles be replaced at least at every service interval. Replace the filter more often if driving in heavy traffic/dirty/dusty conditions at customer's expense.
- ❑ **Wheels and Tires: Check wear and condition and tread depth. Check and adjust air pressure. Reset/Calibrate Tire Pressure Monitoring System.**
- ❑ **Front & Rear Suspension System: Check For Wear**
- ❑ **Steering System: Check For Wear**
- ❑ **CV Joint Bellows: Check**
- ❑ **Check all wiper blades and washer systems for both windshields and headlights for functionality and signs of wear.**
- ❑ **Horn: Check Function**
- ❑ **Seatbelts: Check Function**
- ❑ **Brake Pads, Discs, Hoses and Lines: Check**
- ❑ **Washer Fluid: Check and Adjust**
- ❑ **Brake Fluid: Hygroscopic Check of Brake Fluid**
Adjust level at customer's expense.

Every **40,000 Miles (40, 80, 120)**

- ❑ **Perform all items listed under "Every 20,000 Miles" section and include the item listed below.**
- ❑ **Brake Fluid: Replace**
Recommended to replace every other year at customer's expense.
